We Commit integrity for our stakeholders, create meaningful work for selves and provide something of lasting.

Why Smart Switches & Sockets, Solar Energy Panel & Breakers Performance outstanding & Excellent?

- 30 year's guarantee
- Dealing in Longi & Jinko
- High quality PC material: fire retardant, impact resistance, corrosion resistant.
- The high-shining design Combination with attractive combination colors.
- The socket lug made from tin phosphor bronze with good conductive quality.
- Arc-shaped center ring for a classic and elegant styles.
- Environment friendly not harmful for human skin.
- Switches lift time: 40000 times operation
- Safety: sockets with shutter.
- Stable connection: Copper column
- 10 years quality guarantee.
- Unbreakable solid metal base for switches and sockets.
- Anti-drop design of the screw, so the switches and sockets screw will not come out from the terminal.
- Pure silver contact points.
- **MCB + Changeover**
- Our MCB can be used for equipment protection in power distribution system.
- Protection of control circuit against short-circuit and overload currents faults or circuit control and isolation functions.
- Quality material with flame retardance, compact resistance.

Switches & Sockets

- High Quality PC material, Fire retardant, Impact resistant, Corrosion resistant.
- The socket lug made from tin phosphor bronze with good conductive quality.
- Golden plastic metallic cover, shining attractive colour.
- Silver alloy terminal ends with high melting temperature and less electric arc.
- Environment friendly and not harmful for human skin.
- Socket shutters for child safety
- Unbreakable Solid Metal base

Why People prefer Smart Lights?

- Usman & Company offer a full range of LED LIGHTS for both Indoor and Outdoor illumination.
- We also offers competitive LED lights. In addition, we offer sale services and authentic warranty.
- Our motto is “ Utmost Customer,s satisfaction”
- Excellent thermal management ensures long system lifetime, world class, approbated quality components (LEDs/Drivers).
- Up to 80% energy saving with full compliance to all typing of lighting safety standards.
- High quality cool & worm white light with high color consistency.
- Best research and development facility is equipped with state of the art technology, which help to produce the best product for our valued clients. The utilization of advanced research and development facility makes the client to enjoy the maximum possibilities of illumination and saving the money in the uncertain local electrical and extreme climatic conditions in our country.
- We always put in our best efforts to bring more improvement and have a wide range of products indoor and outdoor illuminations for residential and commercial applications.

Solar Energy Panel

- Equipped with HPBC Cell, continuing the high efficiency gene
- Unique border design effectively reduces the impact of dust accumulation and improves power generation gain throughout the entire lifecycle
- High reliability, stable operation under harsh testing conditions
- More suitable for industrial and commercial colored steel tile roofs and small angle installation scenarios

15-year Warranty for
Materials and Processing

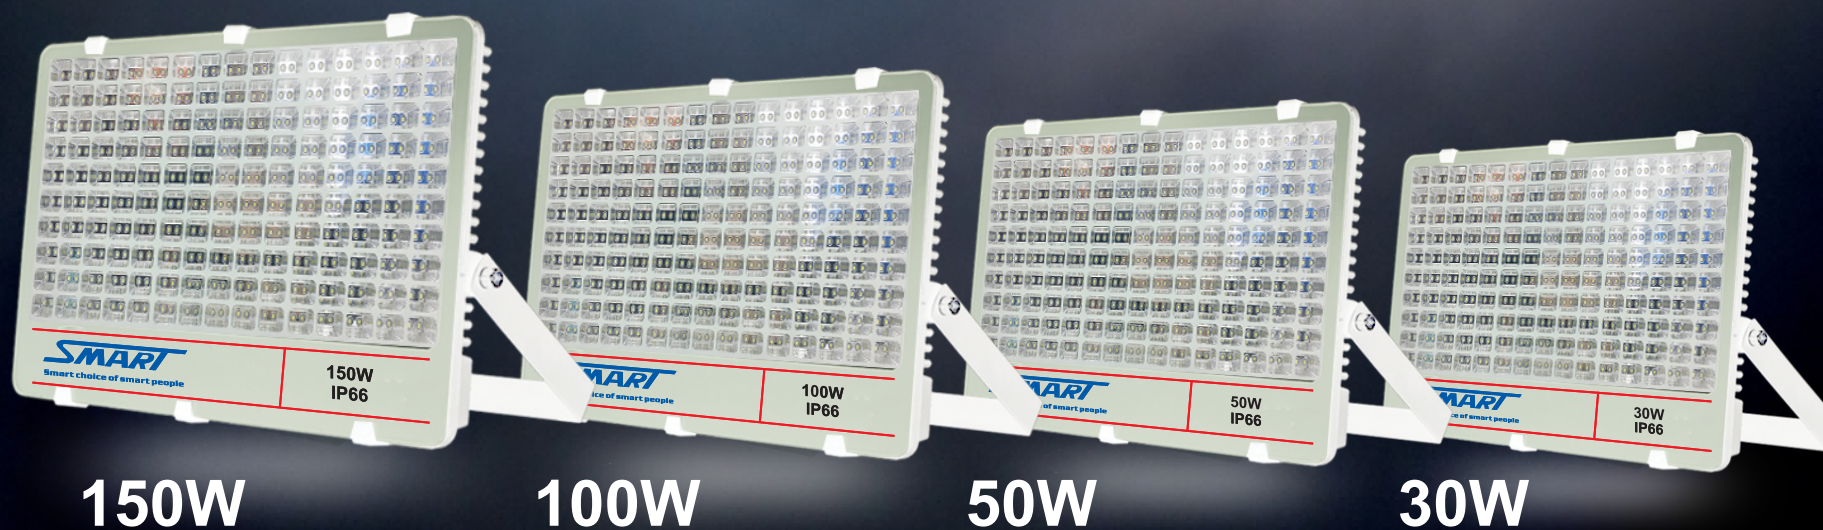

25-year Warranty for
Extra Linear Power Output

Flood Lights

Model-2 CODE WLSP

- High Quality Driver
- High Quality LED
- High Lumens
- Complete Watts
- Water Proof
- Keep Bright Surround

Street Lights

- High Quality Driver
- High Quality LED
- High Lumens
- Complete Watts
- Water Proof
- Keep Bright Surround

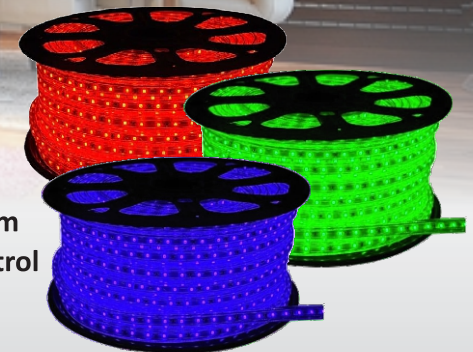

SMD, COB & TRACK LIGHT

- Low Energy Consumption
- Low Maintenance Cost
- Low Thermal Output
- Shockproof and Vibration Proof
- Easy replacement
- Not suitable for dimmers
- CRI>80
- Beam Angle60

Rope Light

- Long lasting, stay cool, energy saving
- Ideal for decorative lighting, Auditorium
- Brightness control and light speed control
- Flexible, durable, easy to install
- low power consumption
